

Favorable Flavors

Choose your favorite flavor to make your medicine go down easier!

These are the best flavors for the most commonly prescribed liquid medicines. If you don't see your prescription on this list, that's okay, it can still be flavored. Just ask us which flavors work best with your medicine. Our flavors are sugar-free, dye-free, hypoallergenic, and do not contain gluten or casein. So, if you've got a liquid prescription, ask us to flavor it. We're happy to help!

Acetaminophen - Clarithromycin

NAME	FIVE BEST FLAVORS
